# New Gymnasium and Boy's Club.

It is a well known fact that for two months past workmen have been busy remodelling the carriage house that stands on the land in the rear of St. Peter's Mission. It is also a matter of common knowledge that the purpose of this alteration is to afford to all the young men and boys of the town a place for legitimate recreation and amusement. The location of the gymnasium is most

street, between the Episcopal Church and Rectory, or from Depot street be-tween the Public Library and the Union-Journal office. The interior of the barn has been en-

convenient, with an entrance from Elm

tirely remodeled. At the south end a stage ten feet deep and dressing rooms have been built, which will be well equipped and available for dramatic purposes. The ceiling has been raised to a height of twelve feet, eight windows put in and the entire hall has been sheathed in spruce. The floor is of South Carolina

Apparatus as varied and complete as the size of the building will allow is on the way. This will include overhead ladders, parallel bars, horizontal bars, climbing ropes, striking bags, chest weights, flying rings, trapeze, vaulting

horse, boxing gloves, fencing foils, Indian clubs, dumb bells, also an upright piano, pianola and Victor Talking Machine.

In answer to many inquiries we give the following plan of work. For one desiring to join the gymnasium the only condition will be that one join the club, by making application to the officers of said club and signing its by-laws to which their age or size would naturally lead them. There are to be three of these clubs: The first for men which will meet on Monday and Wednesday nights from 7 to 10 o'clock, the second for youths, meeting Tuesday and Thursday nights from 7 to 9 o'clock, the third for boys, meeting Tuesday and Friday afternoons from 4.15 to 5.45. There will also be a club for girls on Monday and

Thursday afternoons from 4.15 to 5.45. These clubs are to be self-governing, subject to a few elementary rules govern-ing any reputable public place, and those oining will be asked to sign an agreement to keep each rule and to pay such nominal dues as the officers of the clubs shall see fit to impose.

In addition to the regular club nights, Saturday evening has been de-cided upon as an assembly night for all the clubs at which time exhibitions of the best gymnastic work of each club will be given. Friday nights Rev. Mr. Drake is to open the gymnasium for a social evening for any men of the town who care to attend. The piano, pianola, and talking machine with cards and some score of sporting magazines will furnish the entertainment. This will be the only evening of the week when smoking will be allowed. Sunday afternoons the hall will be open from two until six for reading, smoking and music. On Sundays no gymnastic work will be allowed. It is hoped that this last plan may furnish a quiet social gathering place for any who desire it, and especial y for strangers or traveling men who find themselves in a strange town over Sunday. The building will be open for inspection on Thursday, May 16, from 3 until 6 in the afternoon and from 7 until 10 in the evening. All who care to see what has been accomplished will be cordially welcome. The first of the social evenings for the men of the town will be held on Friday the 17th and 'all who care to attend are heartily invited on this and every Friday evening hereafter. The gynmastic apparatus will not be in use on Friday nights.

We desire to express most emphatically that the gymnasium is open to all regardless of any church affiliations. The regular schedule of clubs mentioned above will go into effect on Monday the 20th of May, and all those desiring to join will be welcome at the gymnasium at the first session of their club. No one is expected to come for gymnastic work unless provided with rubber soled shoes that are to be worn only in the gymnasium. This is to protect and preserve the very handsome varnished floor; nor will anyone be allowed in the gymnasium during club hours without permission from Rev. Mr. Drake unless a member of the club, then entitled to the use of the

We hope that this new enterprise will meet with the hearty cooperation and support of all in the township of Lyndon which it most certainly deserves.
